**The Python Software Foundation is an organization devoted to advancing open source technology related to the Python programming language.**

# Mission of PSF

“The Mission of Python Software Foundation is to promote, protect, and advance the Python programming language; and to support and facilitate the growth of a diverse and international community of Python programmers”

# Mission of EPS

## EuroPython Society

Organizers of the EuroPython conference series.  
Working for the Python community.

The EuroPython Society's mission is to further the use of the programming language Python in Europe and organize events centered around the programming language Python to support this.

# how PSF supported

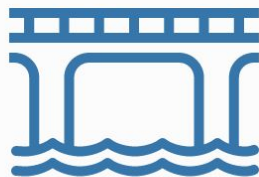

## We Support The Python Community through...

### Grants

So far in 2018 we have approved \$240,000 USD in grants (through September) to recipients in 45 different countries and we're on track to meet or beat our total of \$271,138 from 2017.

### Infrastructure

We support and maintain [python.org](https://python.org), [The Python Package Index](#), [Python Documentation](#), and many other services the Python Community relies on.

### PyCon US

We produce and underwrite the [PyCon US Conference](#), the largest annual gathering for the Python community. Our sponsors' support enabled us to award \$118,543 USD in financial aid to 143 attendees for PyCon 2018.
